Minor in English

Professional Experience

Project Renovare, 2020

UX/UI Designer | Developer

Worked on the development and functionality for the Clark County Historical Museum website redesign, using HTML, CSS, and JavaScript to structure and implement a user-friendly website in WordPress.

- Created wireframes and prototypes in Adobe XD and Photoshop using the rebranding design specifications.
- Implemented prototype designs using GitHub and WordPress.
- Conducted usability testing and collected data to enhance the user experience.

Freelance Designer, 2018 to Present

Creating web graphics for a variety of clients.

- Developing creative content for various media, including web graphics and external material.
- Preparing illustrations, discussing with the client, and making necessary changes.
- Translating brand voices into appropriate social media content.
